

FINANCIAL AND COMMERCIAL.

THURSDAY, August 20-9 P. M.

The railway share market has been heavy and unsettled to-day, and the bull market manifested symptoms of weakness at the prospect of monetary activity in the absence of outside buyers to take their securities. In order to impart an appearance of animation to the dealings in the particular stocks under their manipulation, they buy them and sell them alternately, shifting more than they buy whenever they can do so without breaking down prices. Erie was the weakest of the railway shares, and at one time declined to 9 1/2, after selling at 10 1/2.

Speculation of this stock market is the most successful of all speculative markets to deal in, and those who venture where prudent men fear to tread are likely to find their margin soon varied.

It is probable that while money remains scarce every break in the market will be followed by a quick fall, and that an active speculation for a rise may be developed before the year closes in the Western railway stocks, in consequence of the increased earnings arising from the crop transportation; but at present there is no encouragement to buy the stocks of the trunk lines.

Some of the smaller Western roads, however, are still moderately cheap in comparison with Erie, Hudson River and New York Central.

The drain of currency westward continues with a moderate degree of activity, and the indications are that the half experience a seven per cent money market in consequence at an earlier date than usual this season.

On yesterday and to-day considerable remittances were made by the banks and private banking houses, but the demand for currency funds at all the local banks for the week is becoming sharp. The banks of the city are, however, in a moderately strong position. At the date of this report—namely, on the 17th instant—there had been a total of twenty-five per cent against their deposits and circulation. In addition they held \$5,020,557 of coin, which also counts as a legal tender in estimating their reserve under the law, making together an excess of \$11,645,263. The total liabilities in deposits and circulation were \$27,715,245, and the total reserve, including coin, \$75,304,305; but the law only required a reserve of \$50,020,557. As the deposits are drawn down the amount of reserve required will be reduced in proportion; but the fact remains that if the banks continued to lose legal tender notes at the rate they did last week for a little more than ten weeks the drain would be sufficient to exhaust all that they now hold of legal tender notes. Such a contingency is of course impossible for the banks to meet, but it is sufficient to show that we may suddenly pass from an extremely tight to a very active and even stringent money market, the tendency towards which is suggested by the abundance of the harvest, which calls for a larger amount of money than usual to move the crops. A comparison of the condition of the banks of this city at the date of their last statement and the same time last year shows that they are more extended now than they were then, their supply of legal tender notes being \$10,327,024 less, while their notes are only \$6,710,515 less. As most of their money is based on call, however, this circumstance is of no material consequence to the banks, although it exposes the money market to the risk of a more sudden disturbance than would otherwise be the case.

For the time being money is as cheap and abundant as it was before the western drain set in, although there is inquiry for it this afternoon than there has been of late.

Loans are made freely at four and five per cent on good sized collaterals, and the leading dealers in government securities have about as much offered them at three per cent as they can use. So far, therefore, as practical ease is concerned the bulls on the Stock Exchange have all they desire at present, however nervous they may be about the future. In the discount line there is no material change to note. There is a moderate amount of produce paper offering, which is carefully scrutinized. The best grade of mercantile paper is rated at 6 1/2 per cent, with exceptional transactions at 6 1/4, where it is within thirty days of maturity.

At the early session of the open board railway shares were dull, but under the manipulation of the bull clique they were firm, Erie selling at 10 1/2, after previously touching 9 1/2. A great disposition shown to sell at the current prices, and at the first regular board the tone of the market became heavy. New York Central closed 1/2 higher than at the same time yesterday, Michigan Southern 1/4, Hudson River 1/4, lower, Rock Island 1/4, Northwestern 1/4, do, preferred 1/4, Fort Wayne 1/4, Ohio and Mississippi certificates 1/4, Canton 1/4, Western Union Telegraph 1/4. Government securities, with the exception of seven-thirty notes were steady at the first call and dull, but the second there was some pressure to sell, and the market weakened. Coupon issues of 1891, five-centuries of 1892 and seven-thirty notes of the same and third series of 1893, and all coupon issues were strong and Adams advanced 1/4, selling at 7 1/2. American sold at 7 1/2, United States at 7 1/4, and Wells, Fargo & Co. at 6 1/2, while Merchants' Union, with 50 per cent paid, sold at 17 1/2, and with 25 per cent paid at 12 1/2. The State stocks were rather heavy. Tennessee sales, new, declined 1/4, North Carolina sales 1/4 and Missouri sales 1/4.

At the one o'clock open board the market was weak, and Erie, which had declined to 7 1/2 at the previous board, sold at 6 1/2. At the second regular board prices experienced a further fractional decline. New York Central closed 1/4 lower than at the first regular board; Erie 1/4, Reading 1/4, Michigan Southern 1/4, Cleveland and Putnam 1/4, Northwestern 1/4, do, preferred 1/4, Ohio and Mississippi certificates 1/4, Quaker City 1/4, Western Union Telegraph 1/4, Pacific Mail 1/4 higher. Government securities were heavy. Coupon issues of 1891, five-centuries of 1892, ten-forties of 1893, seven-thirties of 1894, second and third series of 1895. The express stocks were quiet. Adams sold at 7 1/2, Wells, Fargo & Co. at 6 1/2.

At the open board at half-past three Erie rallied to 7 1/2, but during the rest of the afternoon the market was dull, and at six o'clock it closed barely steady at the following quotations: New York Central, 10 1/2; Erie, 6 1/2; Reading, 10 1/4; Michigan Southern, 8 1/2; Rock Island, 10 1/2; Fort Wayne, 10 1/4; Ohio and Mississippi, 4 1/4; do, preferred, 6 1/2; Western Union Telegraph, 4 1/4; Pacific Mail, 14 1/4; Adams, 7 1/2; Wells, Fargo & Co. at 6 1/2.

The business in government securities at the counters of the leading dealers was limited and the tendency of prices favored buyers. Considerable amounts of seven-thirty notes and other securities are being received from the West, and in the absence of a corresponding outside demand the effect is depressing. The decline of twenty-centes in London to 7 1/2, checks the inquiry for shipment. At the close the market was steady at the following prices: Registered, 1891, 10 1/2; 1892, 10 1/2; 1893, 10 1/2; 1894, 10 1/2; 1895, 10 1/2; 1896, 10 1/2; 1897, 10 1/2; 1898, 10 1/2; 1899, 10 1/2; 1900, 10 1/2;
